Chris Curven
Applied Bolting Technology
1413 Rockingham Road
Bellows Falls, VT 05101

Dear Chris:

I want to thank you on behalf of myself and my apprentice classes for all the years of coming down to my training facility and giving your presentation. There are always those questions that come with field bolting and tensioning methods, but you, with your equipment and lecture knowledge, give our apprentices a backbone that is second to none. Also, the t-shirts and maple syrup top the whole night off. I can't wait to get you back in for my new class.

Thanks again to you, Wayne, and all of the applied bolting gang.

Sincerely,

Mark S. Docie
